RESERO

Mindfull introduction

Helping the next generation
find their happy space.

Supporters

Principal

“We see everyday how students physical learning environments as significant impact on their overall wellbeing.

We need to do more to ensure their space is going to enhance their ability to learn and to be able to build positive social connections”.

Bex Skerman
Waipukurau School

Parent & Teacher

“I’ve seen how my child faces challenges fitting into learning environments, both at home and school.

To support his well-being, it is essential that he has access to spaces that cater to his unique needs”.

Anna van de Steeg
Te Mata Primary School

Neuroscience Practitioner

“By creating spaces where children can engage the lower sensory parts of their brains, we can support them to self-regulate.

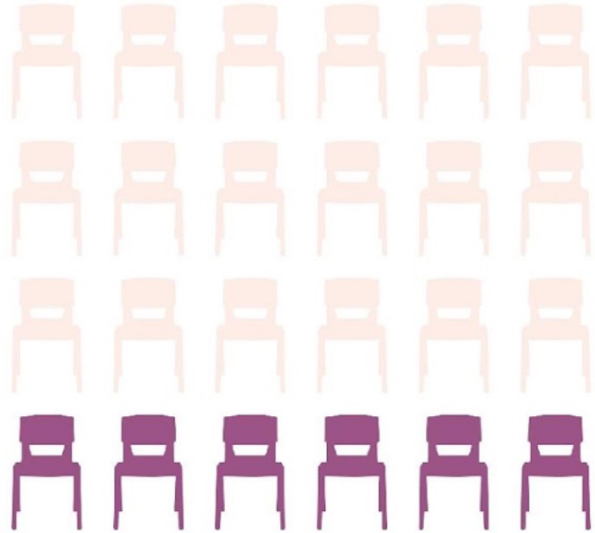

Sensory environments also encourage the development of those building blocks, enhancing the resilience of the generation to come”.

Kathryn Berkett
Masters in Educational Psychology

What we're facing

Research shows up to **1/3** of the classroom suffer from mental health challenges, sensory processing conditions, or a neurodevelopmental condition.

What our classrooms look like

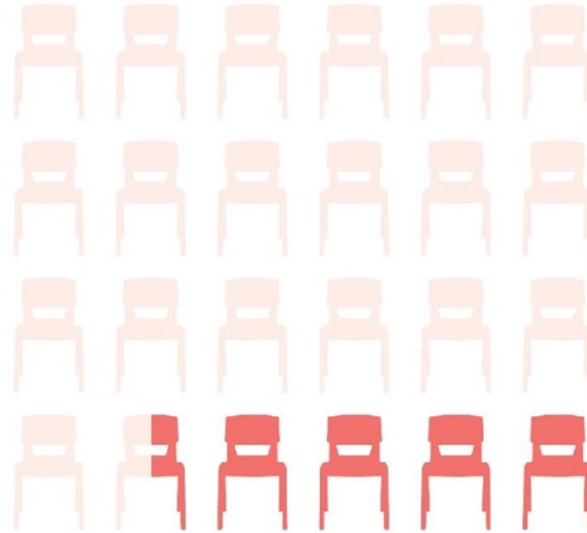

14-20%*

Mental Health Conditions

Between 14-20% of New Zealand and Australian youth are affected by depression or meet the criteria for an anxiety disorder and need support with their emotional wellbeing.

Mental health conditions among New Zealand youth have doubled in the past decade.

5-16%*

Sensory Processing Conditions

Estimates suggest Sensory Processing Disorder (SPD) affects 5-16% of school age children, according to SPD Australia.

3-10%*

Neurodevelopmental Condition

Estimates suggest between 3-10% of Australia & NZ children live with neurodevelopmental disorders.

This number could be under counted by up to 40% due to a lack of data/screening and children not being formally diagnosed.

Our children

I learn
Best with others

I get
Overwhelmed easily

I struggle
To sit still

I like
My own space

I learn
Best alone

Learning space evolution

Traditional

Single cell, face the front traditional classroom. Everyone is visible and has a designated space.

Open Plan

Open plan MLE ILE FLE. Large open space with 2+ classes.

Human-centred

Providing spaces for children to work how they like. Breaking up the large, noisy open-plan spaces.

Biophilic

Inspired by nature, bringing health & wellbeing benefits.
